PROFESSIONAL EXPERIENCE

Full Stack Developer, Phlo Systems Ltd., London, United Kingdom (Remote)

July 2023 - Present

- Developed robust, scalable web applications using Next.js, Node.js, TypeScript, React, Css and MySQL, achieving 100% cross-browser and cross-device compatibility.
- Implemented modular and reusable components, reducing development time for new features by 30%.
- Optimized database queries and server-side logic, improving API response times by 40%.
- Developed an end-to-end document processing system using OpenAI Assistants and Weaviate APIs, achieving 80% extraction accuracy.
- Engineered a customer service chatbot that aggregated knowledge from vector stores and **OpenAI**, increasing issue resolution efficiency by 60%.
- Authored over 100 APIs, debugged platform bugs, and addressed database issues to ensure smooth performance and data integrity. Managed front-end modifications, improving user interface and experience across the platform.
- Enhanced AI assistant response accuracy by 70% through optimized prompt engineering.

SDET Intern, Freecharge Payment Technologies Pvt. Ltd., Gurgaon

February 2023 - July 2023

- Automated testing of KYC and Wallet microservices using Rest-assured and TestNG, enhancing test coverage and security testing. Tested over 10 - 12 APIs
- Designed frontend and backend API testing workflows using Java and Selenium, improving API response reliability.

Data Science Intern Affine Analytics Pvt. Ltd., Banglore

July 2022 - October 2022

- Built a Garbage segregation model using Vgg16 and K-Means Clustering, processing a dataset of 12,000 images.
- Performed digit classification on MNIST dataset using various techniques such as CNN, ANN, Random Forest and Decision Tree algorithms. The MNIST database of handwritten digits has a training set of 60,000 examples, and a test set of 10,000 examples.

EDUCATION

B.Tech in Information Technology

Galgotias College of Engineering and Technology, AKTU, Greater Noida

Intermediate(12th ICSE)

City Montessori School, Lucknow, Uttar Pradesh

April 2017 - April 2018

Percentage - 91.75%

July 2019 - May 2023

CGPA: 7.72/10

High School(10th ICSE)

City Montessori School, Lucknow, Uttar Pradesh

April 2015 - April 2016

Percentage - 90.8%

PROJECTS

Cars360 March 2024

- Developed a user-friendly, responsive car rental platform using HTML, CSS, JavaScript, Next.js, TypeScript, and React, enabling users to browse and book cars for rent seamlessly.
- Deployed the application on Vercel, ensuring fast loading times and reliability for users across different regions.
- GitHub Repository Live Demo.

Fake News Detection Tool May 2023

- Built a web application that classifies news as **Real** or **Fake** with 75% accuracy using a Decision Tree Classifier trained on 2000+ labeled news articles.
- Technologies: Python, JavaScript, HTML, CSS, NodeJS, Flask; Libraries: numpy, pandas, scikit-learn, matplotlib, seaborn.
- GitHub Repository Live Demo.

TECHNICAL SKILLS

Programming: Node.js, TypeScript, Next.js, React.js, Javascript, .NET, Python

Machine Learning Frameworks: Scikit Learn, LangChain, LLMs, OpenAI, AzureAI **Technical**: Web Development, Artificial Intelligence, Machine Learning, Deep Learning
